OBJECTIVE

As a B.Tech graduate with a unique blend of technical versatility and real-world training, I aim to launch my career by contributing to innovative projects that challenge conventions, software development and drive growth. Backed by hands-on experience in cloud services (AWS), ERP systems, and web technologies, I bring a learner's mindset, cross-domain adaptability, and a strong drive to transform ideas into scalable solutions. Ready to grow with an organization that values curiosity, collaboration, and continuous innovation.
